## Mangum Club.

(Contributed)

On July 1st the Willing Workers Club held a very interesting and instructive meeting with Mrs. John Sandy Covington at Mrs. D. N. Currie's at Mangum. The subjects discussed were hat making, preserving, canning and games for entertaining.

We were very glad to have two visitors with us and also the new member added to our club. The afternoon was enjoyed by all and everyone went away with new ideas on the subjects discussed.

Plans were discussed for a week at Jackson Springs for the club girls of the county.

Join the canning club girls and do something for others as well as self, for we can can what we can eat and we don't have to buy.

Secretary.

## Farm Convention at Raleigh.

The farmers and farm women convention will be held at N. C. college of agriculture Aug. 24-26. I am sure this is going to be one of the most helpful and interesting meetings in years. Miss Elizabeth Thompson, of Raleigh, an experienced interior decorator will speak at this convention. She will have on hand an interesting collection of photographs of hand made rugs and fabrics for our inspection.

Just at present we find that women are more interested, perhaps in hats, than any other subject and especially since they can greatly reduce the cost by making them themselves.

Mrs. Willie White Boyette, of Wilson, will give the millinery demonstration. Mrs. Boyette has had training and experience and will teach the methods of drafting patterns and adopting style to suit the needs of the individual. Hand-made flowers and other bits of trimming will add interest to the demonstration. A number of finished hats will be exhibited.

Miss Maude Wallace, of Greensboro, will take on clothing, and will show how commercial patterns may be altered to suit different figures. Miss Wallace will also stress the selection and care of clothing with special reference to economy.

Mrs. Ruby Green Smith, of New York, will speak on Federation of Home Bureau or county councils, a subject which is of paramount interest to all of us just at present.

Remember the dates Aug 24-26. Everybody go; take your wife and your neighbors.

Mrs. J. Sandy Covington.

## Ride on Goodyear Tires in That Sturdy Small Car of Yours

It surprises certain users of small cars to find that they can obtain Goodyear Tires at a first cost ordinarily not greater, and sometimes less, than that of other tires.

This initial value, as well as the very low final cost, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to 30x3-, 30 x 3 1/2- and 31 x 4-inch sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell, or Dort take advantage of the opportunity to enjoy real Goodyear value and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at the nearest Service Station.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread . . . \$23.50  
30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread . . . \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? \$4.50  
30x3 1/2 size in waterproof bag.
